👛 Professional Experience

Volunteer Laravel Developer

🏥 Kamal Edwan Hospital
01/2024 – 10/2024 | Gaza, Palestine

- Developed a custom Laravel-based Fuel Management System to digitize and streamline internal hospital operations.
- Applied RESTful APIs and MySQL to manage real-time fuel tracking.
- Ensured system scalability, data integrity, and user role-based access.

💻 Freelance Laravel Developer

09/2023 – present | Online

- Delivered 5+ Laravel-based SaaS and SPA applications for clients in sectors such as healthcare, retail, and internal business tools.
- Developed full-stack solutions using Laravel, Vue.js, Inertia.js, REST APIs, and MySQL from database design to deployment.
- Built responsive admin dashboards with real-time analytics, role-based access, and secure authentication using Laravel Breeze and custom middleware.
- Continuously optimized application performance and database queries to ensure scalability and smooth UX under high load.
